

FOR ME, THERE'S NO HIGHER CALLING THAN SAFETY.

Aviation Safety Inspectors

Aviation Safety Inspectors (ASIs) are the FAA's on-site detectives. In this role, you will administer, investigate and enforce safety regulations and standards for the production, operation, maintenance and modification of all aircraft flying today. There are many different types of ASIs in four disciplines:

Avionics

Evaluate avionics technicians, training programs and repair facilities as well as investigate incidents and inspect aircraft and related equipment

Manufacturing

Inspect aircraft, aircraft parts, avionics equipment, manufacturing facilities as well as issue production and original airworthiness certifications

Maintenance

Evaluate aviation mechanics, their facilities and training programs as well as inspect aircraft and related equipment for airworthiness

Operations

Evaluate airmen, their training programs, equipment and facilities as well as investigate accidents and violations of major carriers

Qualifications

Qualifications vary according to job position. U.S. citizenship and pre-employment drug screening are required for some positions.

To find out more about the FAA and our outstanding career opportunities and benefits, visit our Career Web site at <http://jobs.faa.gov>.

The FAA does not discriminate on the basis of political affiliation, race, color, religion, national origin, sex, sexual orientation, marital status, age, disability, or any other characteristic not bearing on job performance. On an individual case basis, this agency also makes reasonable accommodations for applicants with disabilities.

When the FAA was established by the Federal Aviation Act of 1958, our primary responsibility was the safety of civil aviation. Today we operate the world's largest aviation system. We are responsible for the safety and certification of aircraft and pilots, for the around-the-clock operation of our nation's air traffic control system, and for the regulation of U.S. commercial space transportation. We're looking for employees to help us maintain our place as the world leader in aviation. So, if you have ambitious goals, this is the place to realize them.
